Automatic Monthly Payment Authorization Information

For those of you on “automatic payment” remember to keep sufficient funds in your account to cover the amount you listed on your authorization form. If no monies are available, the month will be skipped and will not be doubled the next month. This means that you will have to cover the next month yourself. If you do not cover the next month you risk falling behind on dues which will result in a reinstatement fee. Remember to keep sufficient funds in your account that will cover both the automatic payment amount and the minimum balance amount. Local 709 will not be held responsible for any months skipped that result in a reinstatement fee. Check your bank statement regularly to ensure that funds were made payable to Local 709.

From U.Y.F.C.U. “The payment is debited when our system changes the date to the 1st of the month. So they have to have the available funds on the last day of the month.” For example, in order for the credit union’s computer to debit on February 1st, you should have funds available January 31st.

Also, please remember that death assessments are charged in January of every year. If you do not pay this amount yourself, we have to automatically post any money to the death assessment first. Therefore, remember to send in an additional payment for your death assessments at the beginning of each year. Also, any initiation or fines that are overdue will be paid first.

Thank you.
